

# MOBILE FIRST UPGRADE PROJECT

The future state objective of upgrading and integrating

- Registration
- Background Check, &
- AYSOU

is for the seamless transition between platforms for both users and their data.

## New Platform Efficiencies

### **Mobile First**

- Printing: medical releases only, or applications too
- Authorized Purchaser role no longer necessary
- Regions who accept Check/Cash payment for registration now complete the transaction with the Region credit card for immediate registration of player. No spreadsheets for upload, no Office invoices for payment. No delays.

### **Integrated Background Checks**

- No longer email CVPA's with BGC results – visible in Association Insights

### **Integrated AYSOU**

- Association Insights will show highest achievement in Referee or Coaching. All certifications will be visible in AYSOU, including course/assessment detail.
- During the period of migration to Mobile First only, AYSOU updates to Association Platform will be weekly until completion of upgrade – estimating April 30, 2021
  - ✓ Manual option to upload certificate to Mobile First for immediate update

# Association Platform

If you have Admin access to your club portal now, you will have the same access after the upgrade.

If you are the RC/AD/SD, you will be given Admin access to the Association Platform and will need to create additional accesses for other board members based on their roles.

The SD/AD training is to learn how to use the new Association platform, it is **NOT** a training in Mobile First.

**Dashboard Summary:**

- Unique Player Count: 1,230
- Unique Team Admin Count: 101

**Compliance Table:**

Compliance Type	Player/Admin	Total	Complete	Incomplete	View
Risk Status	A	101	9	92	<a href="#">View</a>
Profile Photo	A	16	2	14	<a href="#">View</a>
AYSO Application & Waiver	A	34	1	33	<a href="#">View</a>
Concussion Certificate Heads Up	A	69	6	63	<a href="#">View</a>
COVID 19 Admin Certificate	A	69	0	69	<a href="#">View</a>
Code of Conduct	A	101	12	89	<a href="#">View</a>
Test -- updated	A	101	5	96	<a href="#">View</a>

Configuration changes will update data overnight.
